How the Effective Behavior and Instructional Support (EBIS) Team Process Works
In Elementary School

The EBIS team has three purposes:
1. To review school-wide behavior and academic data in order to evaluate the effectiveness of core programs.
2. To screen and identify students needing additional academic and/or behavior support.
3. To plan, implement and modify interventions for these students. Depending on each student’s “response to intervention,” a formal referral for special education evaluation may result.

EBIS is intended to be a structured, systematic process involving the following features and activities: 1) team membership, 2) school-wide planning, 3) planning for the 20%, 4) monthly meetings, and 5) individualizing-intensifying interventions.

Team membership: Leadership by the principal is essential. EBIS Team membership also must include classroom teachers representing grade levels, the Literacy/Title I Specialist, School Counselor, and specialists from Special Education and ELL programs.

Planning for all students (School-wide): Three times a year, in fall, winter and spring, EBIS teams review data on student performance (e.g., DIBELS, behavior referrals, attendance) in order to evaluate the effectiveness of the core programs. The EBIS model is predicated on the notion that all students can make adequate growth and that core programs should meet the needs of at least 80% of the student population. If this is not the case, the team needs to strategize to shore up the core. This means the School-wide EBIS Team must examine Core Programs, foster honest conversations about whether the core is meeting the needs of 80% of all major student populations (Race, ELL, SPED, etc). The team should then plan prevention/intervention activities that target areas which data analysis suggests need attention (e.g., professional development, re-teaching of basic skills, re-teaching school rules and expectations consistently, etc.). It is vital to have the building principal on the team to ensure that fundamental organizational decisions can be made, resources can be allocated, instructional delivery is effective, and the program is delivered with fidelity.

Planning for the 20% (Targeted groups): The lowest 20% of students at each grade level on DIBELS and/or who have other, significant academic, behavioral or attendance problems, are listed on the EBIS Group Intervention & Planning Form. This is usually best accomplished by grade level teacher teams with core members of the EBIS team assisting them. These EBIS teams choose interventions from the appropriate Standard Protocol (Reading, Math, Writing, or Behavior) for groups of students with similar needs. They also decide on what progress data to collect and the person responsible for collecting the data. Begin the appropriate EBIS Student Intervention Profile in IPAS for all students in interventions. The documents listed above are all available on IPAS. Students in intervention groups are progress monitored as defined on the appropriate protocol using grade level assessments. If a student’s skill level is well below grade level, then the EBIS team may choose to progress monitor the student at his or her instructional level as well as at grade level; only grade level norms should be used in making high-stakes decisions.
**EBIS 20% team meetings:** Each grade level EBIS team convenes at least every 6 weeks to evaluate the progress of the lowest 20% of students at each grade level who are involved in interventions including those students who receive services through Special Education. The team reviews progress-monitoring data for each student, analyzing **aimlines** and **trendlines** (see Decision Rules for Kindergarten and Grade 1-5). Using the decision rules, one of four different decisions may be made at this meeting for each student being reviewed:

1. the group intervention has been successful and the student no longer needs small group instruction, 
2. the intervention is working for the student and should be continued and monitored, 
3. the group intervention is not working for the student and should be revised or refined; or, 
4. the student has not made adequate progress during two intervention periods and therefore the team will proceed to the Individualized, Intensified Intervention described below.

**Individualizing, Intensifying Intervention:** If the student has failed to make adequate progress (see decision rules) after two interventions, additional information must be gathered in order to select an intervention that is specifically targeted to the student’s needs. EBIS teams should complete the following steps:

a. **EBIS Instructional Program Review Notice** should be sent to parents, notifying them that the school is beginning to plan for a more individualized intervention for their student. The **RTI Parent Brochure** describing how the Response to Intervention process works should also be sent to parents at this time.

b. The school counselor should complete the **Developmental History**, through an interview with parents.

c. If the student is an English Language Learner (ELL), obtain information about the child’s language development in comparison to the student’s cohorts from the ELL teacher.

d. Complete pages 1 through 4 of the **Individual Problem Solving Worksheet**. Although time consuming, this level of evaluation is necessary for only a small percentage of students. It provides detail on the student’s history and is important for designing an effective, individualized intervention.

e. Another resource for students with behavioral issues is a **Functional Behavior Assessment**, which can be completed by the team with support from the counselor and/or school psychologist.

Based on the Developmental History, pages 1 to 4 of the Individual Problem Solving Worksheet, ELL information, and progress monitoring data, the EBIS team will complete the Hypothesis Development section (page 5) of the Individual Problem Solving Worksheet and develop an intervention that specifically targets the student’s individual needs. The team will continue to track intervention details using the **EBIS Student Intervention Profile** (located in IPAS) and the EBIS team will continue to monitor progress of the student.

Progress monitoring continues & after 6 weeks in the individualized intervention, the team will determine if:

a. The student has improved substantially and no longer needs to be included in an intervention group.

b. The student has improved substantially and the team reduces the intensity of the intervention and continues to monitor progress.

c. The student is an English Language Learner and is struggling with **reading comprehension** in comparison with his or her ELL Cohort. The intervention designed to improve comprehension will be continued for one additional 6-week period prior to referring to Special Education.

d. A referral for a formal special education evaluation is appropriate. Also consider a referral for special education services for students who have made progress, but the intervention has been intensive and will need to be maintained in order for the student to continue to make progress. The information from the intervention profile, progress-monitoring information, developmental history, and individual problem solving worksheet should be included with the referral as they provide evidence regarding the student’s responses to various interventions. While RTI is used only for Specific Learning Disability identification, the information collected may be useful for any special education referral. See the most current **Special Education Procedures Manual** for details on the special education process.
Individualize Instruction Rule: When students fail to make expected progress after two (2) consecutive small group interventions gather appropriate data and move to the individual level.

EBIS Identification Process
Elementary Schools
Tigard-Tualatina School District, Tigard, Oregon

ALL STUDENTS RECEIVE QUALITY BEHAVIOR AND ACADEMIC INSTRUCTION AND SUPPORT

All Students Are Screened for Additional Instructional Needs (Fall, Winter & Spring DIBELS, IDEL, OAKS, Office Discipline Referrals, Math CBMs, etc.)

Small Group Interventions are chosen from the standard protocols by EBIS Teams

Interventions are further individualized

20% Decision Rule: The lowest 20% of students at each grade level based on school-wide screening measures and/or with chronic behavior needs* will receive strategic group intervention(s)

80% Decision Rule: If 80% of students by subgroup (race, special program, grade level, etc.) are meeting benchmarks, celebrate the success of your Core Program and look for ways to improve. If less than 80% are meeting benchmark, review the Core Program.

TEAMWORK TIMELINES:

School-wide EBIS teams meet fall, winter & spring after benchmark testing to review data and make decisions about school-wide progress.

EBIS 20% teams/Grade level teacher teams meet every 6 weeks to review data, plan and adjust interventions.

Intensify/Change Interventions Rule: When students fail to make sufficient progress, intensify the intervention using the appropriate TTSD Standard Protocol.

Individualize Instruction Rule: When students fail to make expected progress after two (2) consecutive small group interventions gather appropriate data and move to the individual level.

Refer for Special Education Evaluation Rule: When students fail to make expected progress after one individually designed intervention.

Changes in Intervention in Elementary Schools

*Each of these changes constitutes a new intervention, and is decided upon by the EBIS team. These are the options available for academic and behavioral intervention changes.*

1. Add 15 or more minutes per intervention session (ex: extra time could be used to pre-teach vocabulary or core content). Reduce group size by 2-3 students.

2. Add a behavior plan and/or attendance intervention to increase instructional time, motivation and/or attention.

3. Change curriculum according to protocol if the current intervention is not addressing the student’s needs. This change should be based on additional assessment (phonics screener, core program assessment, intervention placement test, etc.).

4. Add curriculum according to protocol based on additional assessment (phonics screener, core program assessment, intervention placement test, etc.) to provide additional practice on targeted skills.

5. The team may decide that the student needs more time in the current intervention along with a refinement in the instructional delivery based on the needs of the student by increasing the intensity of the intervention. In these instances, consult your EBIS coach.

Fifth Grade Student Reading Screening Form ....................................................... 21
EBIS Reading Decision Rules: Grades 1-5

Place students in the 20% group and begin weekly progress monitoring when:
- Academic skills fall below benchmark and place them in the lowest 20% compared to their peers on one or more of the following measures: DIBELS, IDEL, Reading curriculum based assessments, OAKS.
  - Progress monitoring data should be entered into IPAS.
  - For students whose reading skills are well below grade level, the EBIS team may choose to monitor progress at the student’s instructional level as well as at their grade level.
    - Only grade level data should be used in making high-stakes decisions (such as referral to special education).
    - For students already in special education, the team may determine that it is appropriate to monitor less frequently in grade level material (i.e., monthly or 3 times per year).
    - For monitoring progress at a student’s instructional level, the team will select the measure that best matches the instructional content and goals, allows the student to demonstrate success with skill acquisition, and at the same time provides room for growth over time.

Change interventions when:
- Progress monitoring indicates 4 consecutive data points below the aimline or if data are highly variable (points are above and below the aimline), maintain the current intervention until 6 data points have been collected, analyze aimline and trendline (IPAS calculates). Change intervention if the slope is flat or decreasing and the scores are below benchmark.
  - Each time the intervention is changed the aimline is redrawn in IPAS. The aimline is created using the median of the three data points prior to the intervention change as the starting point for the new aimline.
  - For English Language Learners (ELLs) who meet the above criteria, check the progress of the cohort group after each 6-week period to determine whether an individual student’s progress is significantly different from the group. (See page 16 for explicit guidelines for intensifying interventions for ELLs)

Individualize interventions when:
- Progress is below the aimline for TWO consecutive intervention periods. Prior to selecting the individualized intervention, the EBIS team should select a case manager, complete pages one to four of the Individual Problem Solving Worksheet, complete a developmental history, and provide parents with the RTI Brochure. If the student receives ELL services, review ELL information specified on page 16. The team should meet to complete page five of the Individual Problem Solving Worksheet using the above information and select an intervention tailored to the student’s specific needs.

Refer for Special Education evaluation when:
- After one highly structured, 6-week, individually designed intervention, progress continues below aimline OR the team determines that the support is so significant that the student will need continued individual and intensive instruction. If the student is an English Language Learner, see ELL information specified on page 16.

Consider Exiting students from interventions when:
- The student has three progress monitoring data points at or above the next DIBELS benchmark and core reading assessments and intervention assessments indicate grade-level proficiency and student has met the benchmark goal on OAKS (for students in grades 3 to 5).
EBIS Reading Decision Rules: Kindergarten

BEGINNING OF THE YEAR: October

*Place students in strategic or intensive intervention groups by October 15th based on fall DIBELS Next/IDEL data.*

- **Strategic:** Add 10 minutes of intervention instruction daily
- **Intensive:** Add 30 minutes of intervention instruction daily

Use First Sound Fluency (FSF) to progress monitor and graph progress 2 times per month for the students receiving strategic support and weekly for those receiving intensive support.

MIDDLE OF THE YEAR: January

*Regroup students after January DIBELS Next/IDEL has been completed. Place students according into the following groups:*

- **Strategic support:** Add 10 minutes of intervention instruction daily
- **Intensive support:** Add 30 minutes of intervention instruction daily

For students who have met the goal of 20 on Phoneme Segmentation Fluency (PSF), use Nonsense Word Fluency (NWF) to progress monitor. Monitor and graph progress 2 times per month for the students receiving strategic support and weekly for those receiving intensive support through mid April.

END OF THE YEAR: April

*For those students who have been in two interventions and are still not making adequate progress, EBIS teams should complete the developmental history and pages 1 to 4 of the Individual Problem Solving Worksheet. The EBIS team will use that information to complete the Hypothesis Development section (page 5) of the Individual Problem Solving Worksheet and develop an intervention that specifically targets the student’s individual needs. The team will continue to track intervention details using the EBIS Student Intervention Profile (located in IPAS) and the EBIS team will continue to monitor progress of the student.*

Core + a minimum of 45 minutes daily – small group |                      |                                      |
| 4 and 5 | 90 min. daily | Macmillan, Reading Mastery, Edmark (at the determination of the IEP team) | 1st & 2nd Intervention: 
Core + 30 minutes daily – small group | Triumphs, REWARDS, Six-Minute Solution, Read Naturally, STARS, Reading Success | Triumphs, Reading Mastery, Read Naturally, Great Leaps, Corrective Reading, Horizons, Phonics for Reading |
|       |        |                                      | 3rd Intervention: 
Core + a minimum of 45 minutes daily – small group |                      |                                      |
All students, including students with disabilities and English language learners are monitored through the EBIS process. Core and intervention decisions are made according to this protocol.
EBIS Decision Rules: Spanish Literacy

*Place students in the 20% group when IDEL scores are as follows:*

**BEGINNING OF THE YEAR: October**

Kindergarten: Phoneme Segmentation Fluency (FSF) is below 5  
First Grade: Nonsense Word Fluency (FPS) is below 25  
Second Grade: Oral Reading Fluency (FLO) is below 25  
Third Grade: Oral Reading Fluency (FLO) is below 50

**MIDDLE OF THE YEAR: January**

Kindergarten: Nonsense Word Fluency (FPS) is below 10  
First Grade: Nonsense Word Fluency (FPS) is below 40  
Second Grade: Oral Reading Fluency (FLO) is below 40  
Third Grade: Oral Reading Fluency (FLO) is below 60

**END OF THE YEAR: May**

Kindergarten: Nonsense Word Fluency (FPS) is below 25  
First Grade: Nonsense Word Fluency (FPS) is below 70  
Second Grade: Oral Reading Fluency (FLO) is below 50  
Third Grade: Oral Reading Fluency (FLO) is below 65

* During the transition period, ELL students may need greater emphasis on vocabulary development, comprehension and specific literacy transfer skills. Consult with ELL team.
Planning for English Language Learners

Decide if the problem is an individual or group problem.

1. To what degree is the student struggling? Rate the student from 1 (minimal struggle) to 4 (serious struggle).

2. Intervene in the above areas either for the group or for the individual as appropriate. Do not wait for “language to develop” or for “acculturation to occur.” See Intervention Approaches by Area on next page.

- **For group Interventions:**
  - If you decide to intervene with the group, set up a progress-monitoring program in each area of concern. The program should involve weekly progress monitoring.

- **For students in Individual Interventions:**
  - Monitor the student’s progress in the areas of concern.
    - For students at language level 1-3, monitor for 8 to 10 weeks. If the student’s trend line does not improve so that progress is similar to the cohort *, then the intervention should be changed.
    - For students at language level of a “high” 3 and above, use the decision rules as for English only students.

If the student does not make progress after two interventions, move to the individualized stage.

3. **For students who need an individualized intervention:**

- Complete, with the ELL teachers and the parents, the Developmental History and the Individual Problem Solving Worksheet.
- Use the information from these two documents to design intervention(s) in the area of concern.
  - For students at language level 1-3, monitor for 8 to 10 weeks. If the student’s trend line does not improve so that progress is similar to the cohort, then the intervention should be changed.
  - For students at language level of a “high” 3 and above, use the decision rules as for English only students.

*Cohort Group
A cohort group is defined as at least three students with similar language levels, educational experiences, and cultural backgrounds (such as length of time in country, language in the home, language of instruction, and length of time in ELL).
For English Language Development:

1. Increase the amount of practice of target language.
   a. have teacher “require” language output by student multiple times per day
   b. small group “talk group” w/ instructional assistant or volunteer using target language
   c. change size of ELD group and increase opportunities for student to respond orally and in writing

2. Double dose ELD

3. Change size of ELD group.

4. Increase specificity of ELD instruction (For Example, use Language for Learning)

For Acculturation:

1. Consider how the student’s culture may cause instruction to be “out of step” with the student. For example, if the student comes from a culture where girls are expected to not speak to boys, consider this in creating groupings. If the culture emphasizes co-dependence and teamwork, de-emphasize individual grades or competitive games. Review curriculum materials for examples, pictures, and vocabulary that may cause confusion.

2. Work with the parents. Find out what the family’s expectation is for involvement in school, student independence in schoolwork, and understanding of the American school system. Increase home to school communication to help adapt the child’s educational experience to those understandings.

3. Be more explicit with the student about “how school works.”

For Academics:

1. In general, follow the district protocols for Reading, Math, and Written Language.

2. To decide if a student should have a reading intervention:
   a. do your best to find out if the student has strong (Reading, Math, and Written Language) skills (check the record, talk to the parent, see if an adult native speaker can informally assess)
   b. if the student has good skills in native language, place in the core
   c. if the student does not have good skills, place in core AND start interventions.

Notes:
Reading Transition Process: Fifth to Sixth Grade

1. Gather the following data on all students scoring at or below the 35\textsuperscript{th} percentile on OAKS (RIT 220 or below):
   - Latest OAKS Reading RIT score and percentile and previous year’s RIT score and percentile to calculate growth.
   - DIBELS accuracy and fluency scores (median of the last 3 progress monitoring scores for students in interventions. Otherwise administer the spring DIBELS benchmark assessment to obtain this score.)
   - Average words per week growth on DIBELS from January benchmark testing to the end of April progress monitoring. (Use median of last 3 progress monitoring scores in April, subtract January benchmark score, and divide by the number of weeks between those dates.)
   - LAS/ELPA scores for ELL students
   - Current intervention curriculum
   - MacMillan unit tests or MAZE score (median of 3) for students not currently in interventions.

2. Complete the 5\textsuperscript{th} to 6\textsuperscript{th} Reading Group Placement Form (excel spreadsheet) with the above information for students scoring at or below the 35\textsuperscript{th} percentile on OAKS.

3. Identify the students who will take the Language Placement Test based on the following criteria:
   - Are in the intensive range on DIBELS (ORF at or below 102).
   - For students not currently being progress monitored in interventions, administer the spring benchmark DIBELS assessment to obtain this score, otherwise use the median of the last 3 progress monitoring scores. \textbf{OR}
   - Are receiving Reading Mastery as their Core \textbf{OR}
   - Are scoring at the 10\textsuperscript{th} percentile or below on OAKS (RIT 211). This should also include students who took the extended assessment. \textbf{OR}
   - Have an ELD level of 1.

4. Schedule Language Placement test with Reading Specialist at the middle school.

5. Complete the Individual 5\textsuperscript{th} to 6\textsuperscript{th} Grade Student Screening Forms

6. Bring the following data to the transition meeting

   \textbf{Literacy Specialist}
   - Progress monitoring data (with aimlines/trendlines – can use IPAS)
   - Individual 5\textsuperscript{th} Grade Student Screening Forms

   \textbf{Classroom Teacher}
   i. Two most recent MacMillan unit test scores

7. Other things to consider when making placement decisions are previous interventions, amount of support, current core placement, rate of growth

### Who does this work?
- EBIS / EBS Teams<br>- First Steps To Success Staff
- EBS Teams & ALL STAFF
- Appropriate Staff as Determined by EBIS Teams (Principals and School Counselors and/or Psychologists direct this work)
- Appropriate Staff as Determined by EBIS Teams (Principals and School Counselors and/or Psychologists direct this work)

### Review the Core
- Office Discipline Referral Data reviewed monthly. If more than 1 referral per day per month for every 300 students, revisit the CORE and look for patterns in location, time, grade, type, and frequency of incidents.
- If more than 20% of all students received 2 or more referrals: revisit the CORE.
- If more than 30% of referrals occur in a specific area of the school: re-teach specific common area behavior expectations, acknowledge/reward positive behavior, & correct inappropriate behavior immediately.
- If more than 40% of referrals occur in classrooms: re-teach classroom expectations, increase professional development in classroom management strategies, and/or revisit CORE instruction in specific classrooms.

(See Page 2 for Decision Rules)

August, 2011
Elementary Standard Behavior Protocol: Decision Rules

(Page 2)

Decision Rules:

- **K-1 Screening to identify at-risk students:**
  - K-1 Teacher completes “Early Screening Project” (ESP) on each student he or she believes may need behavior support.
  - Students who score in the “high-risk” or “extreme risk” range on the ESP screener are considered for participation in the First Step To Success (FSTS) program.
  - Students identified as “at-risk” or “deficit” on Phoneme Segmentation Fluency (PSF) are considered for Second Tier Reading &/or Behavior Interventions.
  - Students who are identified as “at-risk” or “deficit” on Phoneme Segmentation Fluency (PSF) AND “extreme risk” on the ESP MUST be discussed by the EBIS team for possible referral to the First Step to Success Program.

- **K-5 Place Students in Strategic intervention if:**
  - Student has two or more Office Discipline Referrals within a 3-month period.
  - If more than 5 absences in a 30-day period: EBIS team reviews data to determine appropriate interventions, which may include calls or letters to the family or a behavior support plan.

- **K-5 Progress monitoring:**
  - Monitor Office Disciple Referrals (ODRs) and absences.
  - Daily behavior data from First Step to Success or Check-in Check-out programs.
  - Progress on individual behavior goals or Behavior Support Plan.
  - Consider a referral to the district behavior Team if student isn’t successful with the strategic intervention (See forms on pages 28 – 30.)
  - **Student should experience success. If unsuccessful for more than three days, modify the plan. If more support is needed, consider a referral to the Behavior Support Team (See forms on pages 28 – 30.)**

- **Place students in Intensive Intervention AND refer to Red Zone Team and if:**
  - Progress is below the expected rate after 6 weeks of Strategic Interventions. Perform a Functional Behavior Assessment (FBA) and develop a Behavior Support Plan (BSP).
  - Student receives 6 or more behavior referrals. Perform an appropriate Functional Behavior Assessment & develop a Behavior Support Plan AND consult with the Care Coordinator and/or Juvenile Court Counselor, if applicable.
  - There is a significant concern regarding mental health issues, anti-social behavior, or serious concerns about family support.
  - Student’s behavior poses a potential risk to self or others.

All students in Intensive Interventions should have a Functional Behavioral Assessment (FBA) and Behavior Support Plan (BSP) and be referred to the “Red Zone Team.”

- However, in some instances students might be referred to the Red Zone Team prior to initiating the FBA/BSP process, if complex mental health issues or serious concerns about family support are suspected.
Procedures to Access Care Coordinator Services

PRIOR TO A REFERRAL

1. Teachers and staff analyze student data at EBIS team and match students to appropriate interventions using the “TTSD Behavior Protocol” decision rules.
   a. A list of “Red Zone” students (Tier III interventions) is generated for later discussion at the “Care Team” (see Protocol decision rules to determine Red Zone students).
      i. Any student that a teacher has mental health concerns about should be placed on this list for later discussion;
         -OR-
      ii. if the concern must be addressed immediately, contact the Washington County Crisis Line (503.291.9111) or 9-1-1. The Care Coordinator for your school may be accessed via cell phone for consultation concerning students with imminent mental health needs.

2. Care Coordinators will attend your Care Team meetings and triage student concerns with you.
   a. If the Care Coordinator is not available when the student is discussed, please call him/her to consult before completing the referral/calling the parent about this service.

3. The parent/guardian must be notified by the referring adult before a referral is generated to the Care Coordinator Program.

REFERRAL

1. After your Care Team meeting, the referral source (e.g., teacher, counselor, administrator, etc.) fills out the “Care Coordination Team Referral Form” for the identified student.
2. The identified EBIS Case Manager and/or referral source ensures the Care Coordinator receives the referral form (fax/email/intra-district mail).
3. The care coordinator will respond to a new referral within 3 business days. More urgent referrals can be accommodated if necessary. The care coordinator will also gather any other additional information needed.
4. The care coordinator will contact the student’s parent or guardian to obtain written consent using the “Authorization to Use and/or Disclose Educational and Protected Health Information” form to:
   a. begin working with the student and family to connect them to appropriate community mental health services;
   b. assess the student’s needs; and,
   c. share information between school and provider agencies
5. If the care coordinator is unsuccessful in contacting the family, the care coordinator will follow-up with the EBIS Case Manager to problem-solve.
6. The “Care Coordination Referral Notification Form,” which will be returned to the EBIS Case Manager by the care coordinator, may be placed in the student’s Cumulative Folder.
7. All other pages of the referral packet and treatment records MUST NOT be placed in the student’s Cumulative Folder.
   a. These will kept in a separate treatment file by the Care Coordinator at Lifeworks NW.
Please contact the Care Coordinator assigned to your school or the Program Coordinator, Pam Sturtevant, to discuss process, scope of services, individual students that you’re concerned about, etc. at: 971-207-7181 or the number below.

1. **IDENTIFYING INFORMATION**

   Referral date: ___________________  Student’s TTSD ID#: ___________________

   Student name: ___________________  Gender: Female ☐  Male ☐  Ethnicity: __________

   School: __________________________  Grade: ___  Birth date: ____  Age: ___

   Student address: ___________________  Zip: ___

   Parent/Guardian name(s): __________

   Home phone: ______________  Cell phone: _____________  Work phone: ___________

   Does the student have a current IEP?  Yes ☐  No ☐

   Does student and/or parent/guardian require an interpreter?  Yes ☐  No ☐

   Language: ______________

   To which school counselor is this student assigned? ______________

2. **REFERRAL INFORMATION**

   Who is making this referral?: (Name) ___________________

   Referrer is a:  Student ☐  Parent ☐  Teacher ☐  School Counselor ☐  Other ______________

   Referral source’s phone #: ______________  Email: ______________

   Has this student been staffed with your school’s EBIS Team, “Red Zone” Meeting yet?  Yes ☐  No ☐

   Date case was staffed or will be staffed: ______________

   In addition to this referral, what previous actions or future planning have taken place in regards to this student by the above mentioned team?

   ______________

   ______________

   ______________

3. **CONCERN** (including self report/peer reports)

   Does this student exhibit any of the following warning signs for at-risk behaviors?

   **Early Warning Signs (low-to-medium risk factors/behaviors)**

   - ☐ Social withdrawal
   - ☐ Patterns of impulsive and chronic hitting, intimidating
   - ☐ Excessive feelings of isolation and of being alone
   - ☐ Excessive feelings of rejection
   - ☐ History of violent and aggressive behavior
   - ☐ Feelings of being picked on and persecuted
   - ☐ Persistent sadness
   - ☐ Uncontrolled anger
   - ☐ Intolerance for differences and prejudicial attitudes
   - ☐ Low school interest/Poor academic performance
   - ☐ Excessive absences/Truancy
   - ☐ Affiliation with gangs
   - ☐ Drug use and/or alcohol use
   - ☐ Expression of violence in writing and drawings
   - ☐ Access to, possession of, and use of weapons
   - ☐ Recent loss, grief
   - ☐ Serious medical illness/traumatic injury
Care Coordination Team Referral Form – Page 2

Imminent Warning Signs (high risk factors/behaviors)

- [ ] Serious physical fighting
- [ ] Detailed threats of lethal violence
- [ ] Possession and/or use of firearms, other weapons
- [ ] Severe destruction of property
- [ ] Setting fires
- [ ] Severe rage for seemingly minor reasons
- [ ] Sexually aggressive behavior
- [ ] Other self-injurious behaviors or threats of suicide

What prompted this referral? What are your concerns about risk? Any additional comments you would like to include?

4. PARENT CONTACT
   A. Has the referral source notified the family yet that a referral for mental health care coordination services has been made?  Yes [ ]  No [ ]
   B. If the family has not been notified of the referral for mental health care coordination services, please list the reason(s) why: ________________________________
   C. Name and phone # of parent/guardian contacted: ____________________________________________
   D. Date parent/guardian was notified of this referral: ________________________________
   E. Is parent/guardian supportive of a mental health assessment and services for the student? Yes [ ] No [ ]

5. OTHER PROFESSIONALS INVOLVED WITH STUDENT (for each yes, enter corresponding information below)

   - Child Welfare Services Yes [ ]  No [ ]

Please describe the behaviors that are of concern:  
(That is, what led the team to refer the student at this time?)

Do you have safety concerns for this student? (Please describe)

What supports are currently in place for this student?

- **Behavior:**
  - [ ] Check-in/check-out program
  - [ ] Counseling group
  - [ ] First Steps Program
  - [ ] Strategic Tutoring Program
  - [ ] Other:

- **Academic:**
  - [ ] Title 1 Reading
  - [ ] ELL
  - [ ] Specially Designed Instruction (SpEd)
  - [ ] Other:

Does the student or family access any of the following community services?

- [ ] Individual or group counseling
- [ ] Family counseling
- [ ] Psychiatrist
- [ ] DHS caseworker
- [ ] Juvenile Dept. caseworker or P.O.
- [ ] Truancy Officer
- [ ] Care Coordination
- [ ] Other:

Does the student currently take medications? (Please list)

Please describe the current family situation, including any stressors that the student is experiencing at home:
Behavior Support Team Referral Form Page 2

What services are you requesting?

Level I:
We need help with the following:
- Team Training
- Observations / Data Collection
- Developing materials (point cards, visual schedules, calming cards, etc.)
- File Review
- Developing an FBA
- Developing the Behavior Support Plan (BSP)
- Setting up a data system
- If SpEd: Developing behavior goals for the IEP
- Other:

Level II:
The FBA, behavior plan, and data system are in place. If the student is SpEd, the IEP team has reviewed and updated the IEP within the past month. We need help with:
- Team training on the student’s Behavior Support Plan (BSP)
- Technical support for revising the FBA, BSP, and/or data system
- Trouble-shooting the BSP
- Additional adult support for implementation of the behavior plan
- Consultation with family to develop a home behavior program
- OIS Training
- Other:

Level III: (for students eligible under IDEA only)
The IEP team has completed the following steps and may be considering a change in placement:
- Level II consultation from the Behavior Support Team
- A review of the student’s eligibility and IEP, including additional evaluations that are needed
- A review of the student’s data, with responsive revisions to the BSP

This form must be accompanied by:
- FBA
- Behavior Plan
- Progress Monitoring and other Data
- IEP (For students who are eligible for Special Education)

Send to: Cathy Jensen, Hibbard Administration Center.

6th Grade Math Placement Decision Rules .........................................................................................................35
EBIS Student Intervention Profile – MATH..........................................................................................................36
TTSD Standard Written Expression Protocol.....................................................................................................37
## TTSD Standard Math Protocol

### Decision Rules:

- **Screening:**
  - Kindergarten: Students scoring in the lowest 20% on Missing Numbers CBM OR receiving only “0” and/or “/” in the “Progression of Mathematics Stages” on the Progress Report are considered for Strategic interventions.
  - Grade 1: Students scoring in the lowest 20% on Math Fluency CBMs OR receiving only “1” and/or “/” in “Math” on the Progress Report should be considered for Strategic interventions.
  - Grade 2: Students receiving only “1” and/or “/” in “Math” on the Progress Report or scoring below the 25<sup>th</sup> percentile on Math Fluency CBMs should be considered for Strategic interventions.
  - Grades 3-5: Students receiving only “1,” “2,” and/or “/” in “Math” on the Progress Report, scoring below the 30<sup>th</sup> percentile on the OAKS, and scoring below the 25<sup>th</sup> percentile on Math Fluency CBMs should be considered for Strategic interventions.

- **Progress monitoring:**
  - CBMs are given every two weeks. Trend lines are reviewed every 12 weeks. Trained IAs complete progress monitoring and graph data using IPAS.

- **Intensify intervention:**
  - If progress is below the expected rate after 12 weeks of Strategic Intervention, collect individualizing information and move to Intensive Intervention.
  - If progress is below the expected rate after 6 weeks of Intensive Intervention, EBIS team makes a referral to special education.

### Grade Level(s) | Universal Screening Tool | Core Program | Strategic Interventions | Intensive Interventions
---|---|---|---|---
K | Progress Reports AND CBM: Missing Numbers | Math Expressions: 60 minutes per day | Increased teacher attention during math instruction | 5 minutes of additional guided practice per day
1-2 | Progress Reports AND Math Fluency CBMs | | Core Plus: 10 minutes of additional guided practice per day (can be embedded in the core) | Core Plus: ≥ 15 minutes of additional guided practice per day
3-5 | Progress Reports, Math Fluency CBMs, and OAKs | | OR 10 minutes of Computer Assisted Instruction per day | OR ≥ 15 minutes of Computer Assisted Instruction per day

## TTSD Standard Written Expression Protocol

### Decision Rules:

- **Screening:**
  - K-1: Students receiving at Emergent/Pre-Writing level on the Progress Report are “red flagged”.
  - 2-5: Students receiving 1’s and 2’s only in Organization, Conventions, and Sentence Fluency (Writing) on the Progress Report and/or students scoring below the 30th percentile on OAKS are “red flagged” by the EBIS grade level team.
  - Each “red flagged” student is assessed using Curriculum Based Measurements (Copy the Letter in Kinder; Total Words Written and Correct Word Sequences in 1-5). Students scoring below the 30th percentile on CBMs are placed in Second Tier. Interventions.

- **Progress monitoring:**
  - CBMs are given every other week. Trend lines are reviewed every 12 weeks.

- **Intensifying intervention:**
  - If progress is below the expected rate after 12 weeks of Second Tier Intervention, students move to Third Tier Intervention.
  - If progress is below the expected rate after 12 weeks of Third Tier Intervention, EBIS makes a referral to special education.

*Note: It is critical to differentiate between “can’t” and “won’t” in this area. “Best Work” should always be used in determining the need for additional instruction.*

### Grade Level(s) | Universal Screening Tool | Core Program | Strategic Interventions | Intensive Interventions
---|---|---|---|---
K | Progress Reports | MacMillan & Lucy Culkins: Minimum 30 minutes of instruction per day. | ERI | ERI and Language for Learning
1-4 | | | Increased teacher attention More Guided Practice during core writing instruction | Core plus: ≥ 20 minute weekly session focused on guided practice
5 | Progress Reports | | | |

EFFECTIVE BEHAVIOR AND INSTRUCTION SUPPORT (EBIS)
Instructional Program Review Notice

Dear ____________________________:
(Parent / Guardian)

Your child, ____________________ has been receiving additional support in ______________ through the Effective Behavior and Instructional Support (EBIS) process. The EBIS program’s purpose is prevention of academic and behavior problems by supporting group and individual programs for all students. __________________ called you regarding your child’s progress on ___________________.

(Teacher’s Name) (Date)

The EBIS team is planning on meeting to discuss your child’s needs and to revise his or her EBIS program on: ______________________________.

(Date)

Because your input is an important part of this process, a representative from the team will be contacting you soon to learn more about your child’s developmental and school history. If you need more specific information, please contact ____________________________ at ____________________________.

(Team Coordinator) (Phone Number)

If you have questions regarding the EBIS program, please contact your school principal.

IMPORTANT NOTICE REGARDING SPECIAL EDUCATION: Sometimes students experience substantial ongoing difficulties in school as the result of disabilities. If the school team or your child’s teacher(s) have this concern, they will contact you to discuss it. If you are concerned that your child may have a disability and is in need of special education services, please contact the school principal.
APOYO DE INSTRUCCIÓN Y COMPORTAMIENTO EFICAZ (EBIS)
Carta de Revisión Del Programa de Instrucción del Alumno

Estimado ____________________________:

(Padre/ Tutor)

Su hijo/a, ________________ ha estado recibiendo un suporte adicional en ______________ por medio de Proceso de Apoyo Eficaz, Instrucción y Comportamiento (EBIS). El propósito del programa EBIS es la prevención de problemas académicos y de comportamiento y para apoyar programas individuales y de grupos para todos los estudiantes. ________________ se comunico con usted acerca de el progreso de su hijo(a) el _________________. El grupo EBIS discutirá las necesidades de revisar el programa de EBIS para su hijo(a) el: _________________.

Nombre de Maestro(a)
Fecha
Fecha

Debido a la importancia de su participación en el proceso un representante del grupo de trabajo se comunicara con usted en un corto plazo para saber mas de la historia y desarrollo escolar de su hijo(a). Si usted necesita mas información, por favor hable con __________________________ en al ___________________________.

(Coordinador de Equipo) (Numero de Teléfono)

Si tiene preguntas con respecto al programa de EBIS, por favor de contactar al director de su escuela.

NOTICIA IMPORTANTE CON RESPECTO A LA EDUCACION ESPECIAL: A veces los estudiantes pasan por dificultades sustanciales en la escuela que resultan en in habilidades de aprender. Si el equipo de la escuela o los maestros de su niño(a) tienen esta preocupación, ellos hablaran con usted para discutir esto. Si usted esta preocupado que su niño(a) tenga una in habilidad de aprender y esta en necesidad de servicios de educación especial, por favor hable con el director de su escuela.
**Parent RTI Brochure**

**How we determine who needs additional instruction**

In Tigard-Tualatin School District, we review all elementary and middle school students’ progress three times a year. In high school, we screen students when they enter school. For all students we review assessment, attendance, grade, and behavior data throughout the year. We track students’ achievement in reading especially carefully, and we also look at math and writing performance.

In some cases, all students are given a short assessment. Other times, a team of professionals simply reviews existing academic, behavior, and attendance information. The teams use the data to decide which students are doing well in the standard classroom instruction, which students may need supplemental instruction, and which students may need individualized instruction.

When students receive supplemental small group or individualized instruction, we check their progress frequently. We use “decision rules” to look at the student’s progress and decide if the child needs to have a different kind of supplemental instruction. The key idea is to make changes when instruction is not working for a child.

The first step is to provide small group interventions for a student. If, after a period of instruction, there is still concern, we will plan an individualized intervention. You are invited to participate in this process. During individualized interventions, we monitor children’s progress frequently. If a student makes limited progress during an individualized intervention, we may ask for your permission to conduct an individual evaluation. This evaluation might result in the identification of a learning disability. No evaluation would be conducted without your written consent.

**Parent participation**

Parents are essential to children’s success in school. When a child needs supplemental instruction, we will describe that instruction to you. We will also ask you to tell us about anything you think might affect your child’s learning. For example, it is important for us to know if a child has missed a lot of school, experienced a trauma, or is having problems with friends at school. These types of problems may affect a student’s progress, and if we know about them, we can design an intervention more effectively.

Parents frequently partner with the school to provide extra practice to develop skills. If you do want to provide extra support at home, you can work with the school to make yourself part of your child’s program.

**When children continue to have difficulty**

The school will tell you whether your child begins to make sufficient progress, or if your child has continued difficulty. If you and the school have tried several interventions, and progress is still limited, you may be asked to give your consent for an evaluation. The purpose of such an evaluation is to determine what your child’s educational needs are, and to consider whether he or she might have a learning disability.
Response to Intervention (RTI)

The approach described in this brochure is called Response to Intervention (RTI). This is a way of organizing instruction that has two purposes:

1. To identify children needing help in reading, math, and writing, and prevent the development of serious learning problems; and

2. To identify children who, even when they get extra help, make very limited progress. Research has shown that these children sometimes have learning disabilities.

You may also request an evaluation at any time if you think your child may have a disability. No evaluation would take place without a conference with you, and your written consent.

If you have any questions about this information, please contact the school’s Counselor or Principal.

Your child’s instructional program in the Tigard-Tualatin School District

Tigard-Tualatin School District is committed to ensuring each child makes significant academic progress. To do this, we continuously review information that tells us how each child is progressing. Teacher teams in your school use this process, called “Effective Behavior and Instructional Support.” Look inside to see how this process can help your child.
RTI Manual para padres de familia

Cómo determinamos quién necesita instrucción adicional

En el Distrito Escolar de Tigard-Tualatin, repasamos el progreso de todos los estudiantes en las escuelas primarias (K-5°) tres veces al año. En las escuelas secundarias (6-8) y preparatorias (9-12), examinamos a estudiantes cuando entran a la escuela, y repasamos exámenes, asistencia, grado y datos de comportamiento a través del año. Seguimos el logro de los estudiantes en la lectura muy cuidadosamente y también miramos como están en las matemáticas y la escritura.

En algunos casos, se les da a todos los estudiantes un examen corto. Otras veces, un equipo de profesionales simplemente repasa información existente académica, de comportamiento y de asistencia. Los equipos utilizan los datos para decidir cuales estudiantes están haciendo bien en las clases de instrucción estándares, cuales estudiantes pueden necesitar instrucción suplemental y cuales estudiantes pueden necesitar instrucción individualizada.

Cuando estudiantes reciben instrucción suplemental en grupos pequeños o instrucción individualizada, nosotros revisamos su progreso con frecuencia. Utilizamos las “leyes de decisión” para mirar el progreso de los estudiantes y para decidir si el estudiante necesita tener una instrucción suplemental diferente. La idea dominante es de hacer cambios cuando la instrucción no está trabajando para un niño(a).

El primer paso es de proporcionar intervenciones para el estudiante en grupos pequeños. Si, después de un periodo de instrucción, todavía hay preocupación, planearemos una intervención individualizada. Usted esta invitado a participar en este progreso. Durante intervenciones individualizadas, nosotros supervisamos el progreso de los niños frecuentemente. Si un estudiante hace un progreso limitado durante una intervención individualizada, podemos pedir su permiso de conducir una evaluación individual. Esta evaluación puede resultar en la identificación de una inhabilidad de aprender. No se conduciría ninguna evaluación sin su consentimiento escrito.

Participación del padre

Los padres son esenciales para el éxito de los niños en la escuela. Cuando un niño necesita instrucción suplemental, le describiremos esa instrucción a usted. También le preguntaremos que nos diga sobre cualquier cosa que usted piense puede afectar la habilidad de aprender de su niño(a). Por ejemplo, es importante que nosotros sepamos si un niño(a) ha faltado mucho la escuela, ha pasado por un trauma o esta teniendo problemas con amigos en la escuela. Estos tipos de problemas pueden afectar el progreso de un estudiante y si sabemos sobre ellos, podemos diseñar una intervención con más eficacia.

Los padres se unen frecuentemente con la escuela para proporcionar práctica adicional para desarrollar habilidades. Si usted desea proporcionar ayuda adicional en el hogar, puede trabajar con la escuela para hacerse parte del programa de su niño(a).

Cuando los niños continúan teniendo dificultades

La escuela le dirá si su niño(a) está empezando a hacer progreso suficiente, o si su niño(a) ha continuado con dificultad. Si usted y la escuela han tratado varias intervenciones, y el progreso todavía está limitado, se le puede pedir por su consentimiento para una evaluación. El propósito de esa evaluación es para determinar cuales son las necesidades educativas de su niño y para considerar si el o ella pueda tener una inhabilidad de aprender.
Respuesta a la Intervención (RTI)

El enfoque escrito en este folleto se llama Respuesta a la Intervención (RTI). Esta es una manera de organizar instrucción que tiene dos propósitos:

1. Para identificar a niños que necesitan ayuda en la lectura, matemáticas y escritura y prevenir el desarrollo de serios problemas de aprender; y

2. Para identificar a los niños que, aun cuando se les da ayuda adicional, hacen un progreso muy limitado. Investigaciones han demostrado que estos niños tienen a veces habilidades de aprender.

Usted también puede solicitar una evaluación en cualquier momento si usted piensa que su niño pueda tener una habilidad de aprender. Ninguna evaluación se tomará acabo sin una conferencia con usted y su consentimiento escrito.

Si tiene cualquier pregunta sobre esta información, por favor hable con el Especialista de Alfabetismo o con el Director de la escuela.
Developmental History
Page 1 of 3
(To be completed through an interview with the counselor or school psychologist)

Student’s Name: ________________________         DOB _________ Age______ Grade______
Person Interviewed: _________________________    Relationship to Student:  ______________
Interview Completed by:  ____________________________  Date:  _______________
Language Spoken in Home:  __________ Interpreter (If used):  ________________________

Birth History

1. How often did you see a doctor while you were pregnant?   Regularly__ A few times ___ Not at all ___

2. Were you sick or did you have any complications while you were pregnant?   Yes_____  No _____
If yes, what did you have?  

3. Did you have measles or any other childhood disease while you were pregnant?   Yes ___  No ____
If yes, what did you have?  

4. Did you have trouble giving birth?   Yes____ No ____ (Premature birth, complications, concerns at birth?)
If yes, please explain  

5. Was your child born in a hospital?   Yes _____ No ____

6. Did your child have any illness or other concerns during the first year?   Yes _____ No ____
If yes, what was the illness or concern?  

Developmental Milestones/Health History

7. Were your child’s developmental milestones (sitting (5 -8 mo.), walking (9-15 mo.), speaking in single words (9-15 mo.) and in sentences (1-2 yrs.), toilet training (2-3 yrs) generally within normal limits? Did you have any concerns about this?  
Yes _____ No _____  If yes, please explain:  

8. Does the child have any brothers or sisters?  If so, list ages, gender.  

9. Who lives in the home?  (Parents, siblings, grandparents, etc.)  

10. Has your child’s speech and/or language development been significantly different than his or her siblings?  
(i.e. simpler vocabulary, later to begin speaking, difficulty following directions)  
Yes _____  No_____  If yes, please explain  

11. Do people outside the family easily understand what your child says?  
Yes_____  No_____  If no, please tell about it.  

12. What language(s) is (are) spoken in the home?  
What language does your child speak most often with friends?__________ siblings?_________  What language does your child hear most often at home? ___________ In which language does your child generally respond? ___________
Developmental Milestones/Health History (Continued)

13. Have any of the following happened to your child?
   a. Had a temperature over 104 degrees for more than a few hours? Yes ___ No ___
   b. Had to go to the hospital because of a temperature? Yes ___ No ___
   c. Ever lost consciousness? Yes ___ No ___
   d. Ever had a concussion? Yes ___ No ___
   e. Ever had any kind of an operation? Yes ___ No ___
   f. Ever been to a hospital for any other sickness or trouble not mentioned above? Yes ___ No ___
   g. Ever had problems with hearing or vision Yes ___ No ___
   h. Had frequent earaches? Yes ____ No ____
      If yes, were tubes installed? ______ At what age? _______
   If you answered yes to any of these questions, please tell about it: ________________________________

14. Has your child been diagnosed with any physical or mental health problems? Yes ____ No ____
   If so please explain: _______________________________________________________________________

15. Does your child take any kind of medicine or pills regularly for some condition? Yes ___ No ___
   If yes, please list the medication(s)? What are they for and how long has your child been taking them? __________________________

16. Has your child ever seen a private counselor or psychologist? Yes ___ No ___
   If so, for what reason? _________________

17. Does your child have any problems sleeping (falling asleep, staying asleep)? ____________________

18. Is there any history of learning problems and/or speech/language difficulties in the family? Yes ___ No ___
   Please explain _____________________________________________________________________________

19. Is there any family history of physical or mental health problems? Yes ___ No ___
   If so please describe: ________________________________

20. Have any major stressful events occurred to you and your family within your child’s lifetime, such as a major illness, death in the family, trauma, homelessness, moving far away from family, etc? If so, please explain and list when these things occurred. ________________________________________________

   Educational History

21. Did your child attend preschool? Yes _____ No _____ Please list frequency, duration, (days per week, hours per day) and types of activities. ____________________________________________

22. How many different schools has your child attended? ________ If your child’s primary language is not English, has your child had any formal schooling in their native language? ________ If so, for how many years? ________

23. Would you describe the child’s school attendance as poor, fair, or good? _____________ If there have been any interruptions in your child’s school experience, please explain. ________________________________________________
Developmental History

Educational History (Continued)

24. What does reading with your child look like at home? (i.e., you reading to your child, your child reading to you, how much time per week, in what language, etc.)? ____________________________________________________________

25. Does your child experience difficulty doing or completing homework? Please explain: ____________________________________________________________

26. Do you have any concerns about your child’s learning or school experience? If so, what do you think are the primary issue(s) contributing to your child’s difficulties? ____________________________________________________________

Activities/Hobbies

27. Now or in the past has your child been involved in any activities outside of school such as sports, playgroups, library visits, or scouts? Please list: ________________________________________________________________________________

28. How much “screen time” or media does your child have access to daily? _______ What shows and video games does he or she watch or play most often? ____________________________________________________________

29. What kinds of things do you expect or ask that your child do such as chores or responsibilities around the house (for example: cleaning his/her room, emptying the trash, answering the phone, caring for siblings, etc.)? Is this routine or when he/she feels like it? ____________________________________________________________

30. What does your child’s morning routine look like? ____________________________________________________________

31. Describe your child’s activity level (trouble sitting still, lethargic, etc.). ____________________________________________________________

32. How easily does your child make and/or keep friends? ____________________________________________________________

33. When you want your child to do something, do you feel you have to repeat yourself more often than you would like to or feel that you should have to? Yes____ No____

34. How does your child behave when frustrated or angry? ____________________________________________________________

35. Does your child experience problems with changes in routine? Yes ___ No ___ If so, please describe. __________________________

36. What does the family like to do for fun together? What does your child like to do with just you? __________________________

37. What does your child do which pleases you the most (those things that make you proud as a parent)? __________________________

38. Do you have any concerns about your child that we haven’t yet discussed? Yes ____ No____
If so, please describe (what are they, when did they begin, what is being done about them)? __________________________

Historial de Nacimiento (Birth History)

1. ¿Con qué frecuencia visito un doctor mientras estaba embarazada? (How often did you see a doctor while you were pregnant?) □ Regularmente (Regularly) □ Algunas veces (A few times) □ Nunca (Not at all)
2. ¿Estuvo enferma o tuvo complicaciones durante su embarazo? (Were you sick or did you have any complications while you were pregnant?) □ Sí (Yes) □ No  Si sí, ¿Qué tuvo o cuales fueron las complicaciones? (If yes, what did you have?)
3. ¿Tuvo sarampión u otra enfermedad de niñez mientras estaba embarazada? (Did you have measles or any other childhood disease while you were pregnant?) □ Sí (Yes) □ No  Si sí, ¿qué es lo que tuvo? (If yes, what did you have?)
4. ¿Tuvo problemas al dar a luz, parto prematuro, complicaciones o problemas? (Did you have trouble giving birth, Premature birth, complications, concerns at birth?) □ Sí (Yes) □ No  Si sí, por favor explique (If yes, please explain): ___________________________________________________________________________________
5. ¿Nació su hijo/a en un hospital? (Was your child born in a hospital?) □ Sí (Yes) □ No
6. ¿Tuvo su hijo/a enfermedades o algo malo durante el primer año? (Did your child have any illness or any other concerns during the first year?) □ Sí (Yes) □ No  Si sí, ¿Cuál fue la enfermedad o que tenía mal? (If yes, what was the illness or concerns?)

Etapas de Desarrollo/ Historia de la Salud (Developmental Milestones/Health History)

7. ¿Fueron las etapas de desarrollo normales de su hijo/a, ej. sentarse (5-8 meses), caminar (9-15 meses), hablar palabras sultas (9-15 meses), y frases (1-2 años), entrenamiento de baño (2-3 años) en general en limites normales? (Were your child’s developmental milestones, i.e., sitting 5-8 mo. walking 9-15 mo., speaking in single words 9-15 mo, speaking in sentences 1-2 yrs, toilet training 2-3 yrs generally within normal limits?) ¿Tiene algunas dudas acerca de esto? (Did you have any concerns about this?) □ Sí (Yes) □ No  Si sí, por favor explique (If yes, please explain): ___________________________________________________________________________________
8. ¿Tiene su hijo/a hermanos/as? Si sí, haga lista de las edades y sexo. (Does your child have any brothers or sisters? If so, list ages and gender.) ____________________________________________
9. ¿Quién vive en casa? (padres, hermanos, abuelos, etc.) (Who lives in the home? {parents, siblings, grandparents, etc})

10. ¿Ha sido significantemente diferente el habla o el desarrollo del lenguaje de su hijo(a) al de sus hermanos? (Por ejemplo usa vocabulario más sencillo, demoro mas en hablar, o se le dificulta seguir instrucciones) (Has your child’s speech and/or language development been significantly different than his or her siblings? {i.e. simpler vocabulary, later to begin speaking, difficulty following directions}). □ Sí (Yes) □ No  Si sí, por favor explique. (If yes, please explain): ___________________________________________________________________________________
Historia del Desarrollo (Developmental History)
Page 2 of 4

Etapas de Desarrollo/ Historia de la Salud, Seguido (Developmental Milestones/Health History, Continued)

11. ¿Entienden las personas fuera de su familia lo que dice el niño/a? (Do people outside the family understand what your child says?) □Si (Yes) □No Si no, por favor escriba sobre ello. (If no, please tell about it):

____________________________________________________________________________________________

12. ¿Qué idioma(s) se hablan en casa? (What language(s) are spoken in the home?) __________________________
¿Qué idioma usa mas su hijo/a con amigos/as? (What language does your child speak most often with friends?) __________
¿con sus hermanos/as? (with siblings?) ___________ ¿Qué idioma escucha mas su hijo/a en casa? (What language does your child hear most often at home?) _________________. ¿En qué idioma generalmente responde su hijo/a? (In which language does your child generally respond?) ________________________

13. ¿Algo de lo siguiente le ha sucedido a su hijo/a alguna vez? (Have any of the following happened to your child?)
   a. ¿ha tenido temperatura sobre 104 grados F° (40 grados C°) por más de unas cuantas horas? □Si (Yes) □No
   b. ¿ha tenido que ir al hospital por razón de una temperatura? (had to go to the hospital because of a temperature?) □Si (Yes) □No
   c. ¿ha perdido la consciencia? (ever been knocked unconscious?) □Si (Yes) □No
   d. ¿ha tenido una concusión cerebral? (ever had a concussion?) □Si (Yes) □No
   e. ¿ha tenido algún tipo de cirugía? (ever had any kind of surgery?) □Si (Yes) □No
   f. ¿ha visitado un hospital por cualquier otra enfermedad que no ha sido mencionada arriba? □Si (Yes) □No
   g. ¿ha tenido problemas de oído o la visión? (ever had problems with hearing or vision?) □Si (Yes) □No
   h. ¿ha tenido dolor de oídos frecuentemente? (had frequent earaches?) □Si (Yes) □No
      Si sí, ¿se instalaron tubos? (if yes, were tubes installed?) □Si (Yes) □No
      ¿a qué edad? (at what age?) ______
      Si contesto sí a una de estas preguntas, por favor escriba sobre ello. (If you answered yes to any of these questions, please tell about it):

__________________________________________________________________________________________

14. ¿Ha sido diagnosticado su hijo/a de algún problema de salud físico o mental? (Has your child been diagnosed with any physical or mental health problems?) □Si (Yes) □No Si si, por favor explique (If yes, please explain):

__________________________________________________________________________________________

15. ¿Toma su hijo/a cualquier tipo de pastillas o medicina regularmente para alguna condición? (Does your child take any kind of medicine or pills regularly for some condition?) □Si (Yes) □No ¿Si sí, por favor diga para qué es la medicina y por cuánto tiempo lo ha estado tomando su hijo/a? (If yes, please list the medication(s). What are they for and how long has your child been taking them?)

__________________________________________________________________________________________

16. ¿Ha sido visto su hijo/a por un psicólogo o un consejero privado? (Has your child ever seen a private counselor or psychologist?) □Si (Yes) □No Si sí, por que razón? (If yes, for what reason?:

__________________________________________________________________________________________

17. ¿Tiene su hijo/a problemas de sueño (para dormir o dormir demasiado)? (Does your child have any problems sleeping (falling asleep, staying asleep)? □Si (Yes) □No

18. ¿Hay problemas de familia en el aprendizaje y/o dificultades de idioma? (Is there any history of learning problems and/or speech/language difficulties in the family?) □Si (Yes) □No Por favor explique (Please explain)
19. ¿Hay historial de problemas mentales o físicos en la familia? (Is there any family history of physical or mental health problems?) □Sí (Yes) □No Si sí, descalco (If so, please describe): ____________________________

20. ¿Ha habido situaciones mayores de stress ocurrido a usted y a su familia durante la vida de su hijo/a tal como una enfermedad grave, una muerte en la familia, trauma, indigencia, o que se hubieran mudado lejos de la familia, etc.? Si así fue, por favor explique y haga lista de cuando ocurrieron estas cosas. (Have any major stressful events occurred to you and your family within your child’s lifetime, such as a major illness, death in the family, trauma, homelessness, moving far away from family, etc? If so, please explain and list when these things occurred.) □Sí (Yes) □No ____________________________

Historia Educativa (Educational History)

21. ¿Su hijo/a asistió a la pre-escuela? (Did your child attend preschool?) □Sí (Yes) □No Por favor haga lista de la frecuencia con que asistió, la duración (días por semana, horas por día) y las diferentes actividades que hacían. (Please list frequency, duration (days per week, hours per day), and types of activities.) ____________________________

22. ¿A cuántas escuelas ha asistido el niño/a? (How many different schools has the child attended?) Si el idioma principal de su hijo/a no es el ingles, ¿ha recibido instrucción formal en su idioma nativo? (If your child’s primary language is not English, has your child had any formal schooling in their native language?) □Sí (Yes) □No ¿Si sí, Por cuantos años? (If so, For how many years?) ____________________________

23. ¿Cómo describiría la asistencia escolar del estudiante: buena, regular, o mala? (Would you describe the child’s school attendance as poor, fair, or good?) Si ha habido interrupciones durante la experiencia escolar de su hijo(a), por favor explique. (If there have been any interruptions in your child’s school experience, please explain.) ____________________________

24. ¿Describa una situacion de lectura en su casa (ej. Usted lee a su hijo/a, so hijo/a lee a usted, cuanto tempo por semana, y en que idoma, etc.? (What does reading with your child look like at home (i.e., you reading to your child, your child reading to you, how much time per week, in what language, etc.?) ____________________________

25. ¿Experimenta dificultad su hijo/a para terminar la tarea? (Does your child experience difficulty doing or completing homework?) □Sí (Yes) □No Por favor explique (Please explain:) ____________________________

26. ¿Tiene usted dudas acerca de la experiencia educativa de su hijo/a? Si sí, cual es son las principales razones que contribuyen a estas dificultades? (Do you have any concerns about your child’s learning or school experience? If so, what do you think are the primary issue(s) contributing to your child’s difficulties?) ____________________________

27. Está o ha estado su hijo/a envuelto en alguna actividad fuera de la escuela tal como en deportes, grupos de juego, visitas a la biblioteca o ha sido excursionista/scout? (Now or in the past has your child been involved in any activities outside of school such as sports, playgroups, library visits, or scouts?) Por favor haga mención (Please list): ____________________________
Actividades y Pasatiempos (Activities/Hobbies)

28. ¿Qué tanto tiempo pasa en la pantalla o que tanto acceso diario tiene al medio de comunicación? ¿Qué programas o videos juegos juega más frecuentemente? (How much screen time or media does your child have access to daily? What shows and video games does he or she watch or play most often?) ______________________________

29. ¿Qué clase de cosas espera usted o le pide a su hijo/a que hagan como quehaceres o responsabilidades alrededor de la casa (por ejemplo: limpiar su cuarto, tirar la basura, contestar el teléfono, cuidar a hermanos, etc.)? ¿Esto es rutina o cuando quiera el/ella? (What kinds of things do you expect or ask that your child do such as chores or responsibilities around the house (for example: cleaning his/her room, emptying the trash, answering the phone, caring for siblings, etc.)? Is this routine or when he/she feels like it? ____________________________________

30. ¿Cuál es la rutina matinal de su hijo/a? (What does your child’s morning routine look like?) ______________________________

31. Describa el nivel de actividades (problema para estar sentado, letargia, etc.) (Describe your child’s activity level (trouble sitting still, lethargic, etc.) ______________________________

32. ¿Qué tan fácil es para su hijo/a hacer amigos y mantener amistades? (How easily does your child make and/or keep friends?) ______________________________

33. Cuando usted quiere que su hijo/a haga algo ¿siente que tiene que repetírselo más de lo que quisiera o que debiera hacerlo? (When you want your child to do something, do you feel you have to repeat yourself more often than you would like to or feel that you should have to?) □Sí (Yes) □No

34. ¿Cómo se comporta su hijo/a cuando se enoja o está frustrado? (How does your child behave when frustrated or angry?) ______________________________

35. Tiene su hijo/a problemas con el cambio de rutinas? Si si, describa. (Does your child experience problems with changes in routine? If so, please describe.) ______________________________

36. ¿Qué le gusta hacer a la familia para divertirse juntos? (What does the whole family like to do for fun together?) ______________________________

37. ¿Qué hace su hijo/a que le agrada a usted (esas cosas que lo enorgullecen como padre/madre)? (What does your child do which pleases you the most (those things that make you proud as a parent)?) ______________________________

38. Tiene usted preocupaciones sobre su hijo/a que no hayen sido discutidas? (Do you have any concerns about your child that we haven’t yet discussed? If so, please describe (what are they, when did they begin, what is being done about them)?) _____ Si sí, describa (If so, please describe): ______________________________

**ATTACH ELD DATA, EITHER LAS BENCHMARK OR CWS AND S. DUTRO QUICK SCREEN**

**ADDITIONAL REVIEW QUESTIONS FOR ELL STUDENTS**

_______ How long has the child been in an ELL program in the United States?

_______ Is the student’s language level and rate of progress similar to the language level of other students in their cohort group? *(This should give an initial indication of potential learning difficulty IF the child has had years of explicit English language instruction but not made progress.)*

_______ Is there an indication in the Developmental History that the child has a delayed or disrupted educational experience? *(This could explain why the child’s skills are very low.)*

_______ Is there an indication in the Developmental History that the student’s language and/or academic development has been different from his or her peers? *(This might be an indication that the student may have a learning difference that is inherent.)*

**INDIVIDUAL PROBLEM SOLVING WORKSHEET – CONTINUED**
STUDENT: ___________________ DATE: ___________ TEAM MEMBERS: ________________________________

**HYPOTHESIS DEVELOPMENT**

1. Does evidence support that the student’s problems may be primarily due to problems with attention, motivation, or other behavioral difficulty? Include data along with progress monitoring of behavioral supports.

2. Does evidence support that the student’s problems may be primarily due to attendance problems, or frequent school interruptions? If so, indicate reasons for absences and interruptions. What interventions have been put in place to address this issue? Progress should be proportionate to attendance.

3. Does evidence support that the student’s problems may be primarily due to other concerns like trauma, economic or cultural disadvantage, or other disabilities? Describe. Be sure to note *when* these issues occurred and their correlations with any academic concerns. What will be done to help the student be more successful?

4. Does the evidence support that the child’s difficulties may be the result of language difficulties in areas such as language processing, social language, or articulation? Indicate next steps.

5. Does the evidence support the hypothesis that the difficulty is due to limited English proficiency? Indicate next steps.

6. Does the evidence suggest that the student has low skills and slow progress despite intensive interventions? What will the individualized intervention be? Curriculum, time per day, size of group, etc.
Sample Agendas, Surveys, and Supporting Documents

Sample Elementary EBIS 20% Meeting Agenda ........................................................................................................... 58
Elementary EBIS 80% Meeting Guidelines ................................................................................................................... 59
Coaching Feedback Document .................................................................................................................................. 60
Elementary EBIS Team Planning Survey ................................................................................................................. 62
Sample Elementary EBIS 20% Meeting Agenda

**Behavior:** Identify students and determine whether adequate supports are in place. If not, make a plan for support.

- **Grades K – 5 Decision Rule:** Who are the students with one (1) or more Office Discipline Referrals in the past month?
  - Repeaters? Review progress monitoring data and adjust interventions if necessary.
- **Kindergarten Decision Rule:** Who are the students identified through the First Step assessment?
  - Review progress monitoring data and adjust interventions if needed. If in First Step, review data with the First Step consultant
- **Who are the students with two (2) or more counseling referrals for the past month?**
  - Determine appropriate Second Tier intervention from Behavior Protocol.
  - Repeaters? Review progress monitoring data and adjust interventions if necessary.
- **Who are the students with three (3) or more visits to the health room in the past month?**
  - Repeaters? Make counseling referrals as necessary.
- **Review progress monitoring data (i.e., CICO) for students currently on behavior plans.**
- **Any other children about whom teachers are concerned?**

**Attendance:** Identify students and develop a plan for positive support at home and school.

- **Who are students with five (5) or more tardies and/or absences in the past month?**
  - Which students need a positive support plan at school? What will it be?
  - Which students need a parent contact? Plan for phone call or one of three letters.

**Reading:** Which students scoring in the bottom 20% have four (4) or more data points below their aim line or a trendline that is flat or decreasing and the scores that are below benchmark or IPAS states to change the intervention.

  - After first six (6) weeks, adjust intervention and complete fidelity check
  - After second six (6) weeks, notify parents, collect the information below, and design an individualized intervention.
    - Classroom teacher calls parent to discuss lack of progress of the student and sends RTI brochure to parent or gives to parent during Developmental History meeting
    - Complete the Individual Problem Solving Worksheet
    - Counselor/psychologist completes the developmental history
    - Based on information gathered, along with the Individual Profile and the ELL information if relevant, the sub-team designs the individualized intervention, using the Hypothesis Development page from the Problem Solving Worksheet.
  - After third four to six week intervention if student continues to not make improvement, consider a referral to Special Education.

**Math:** Consider placing the following students in a strategic math intervention:

- **K – 1:** Students scoring in the lowest 20% on the CBM screening or receiving only /, 0, or 1 on their progress report
- **2nd:** Students receiving only 1 and/or / on the Progress Report or scoring below the 25th percentile on Math Computation CBMs.
- **3rd – 5th:** Students receiving only 1, 2, and/or / on the Progress Report and scoring below the 25th percentile on Math Computation CBMs and scoring below the 30th percentile on OAKS

Progress monitor students in math interventions every two (2) weeks. Review the data every 8 weeks.
Elementary EBIS 80% Meeting Guidelines

Meeting tips:
- Use a projector or wall chart to display student data
- Meet only if the principal and other essential team members are present
- Remind the team that the focus of the meeting is general education and ensuring that all students are making growth (review data disaggregated by race, special programs (ELL, Sped), subject, teacher)
- Designate roles (timekeeper, facilitator, note taker)
- Organize the data before the meeting
- Celebrate successes
- Conduct 80% meetings after each DIBELS screening.

Team membership:
- Principal
- Literacy Specialist
- Counselor
- * ELL Teacher
- * Special Education Representative
- * Grade Level Representative

Purpose: To determine the effectiveness of the core program and make necessary adjustments if it is not meeting the needs of 80% of the students.

Examine the data:
- * Attendance
- * DIBELS
- * Behavior (ODRs)
- * OAKS

- Review data from the DIBELS Cross-Year Performance Report and Summary of Effectiveness Report and ask the following questions:
  - If the grade level increased the percent of students at low risk or established or decreased the percent of students at deficit, what are some differences in the system that might have resulted in this improvement?
    - It is helpful to focus on characteristics of the system—such as instructional materials, time, and grouping, rather than commenting on how this year's class is "just higher than last year's".
  - If the grade level decreased the percent of students at low risk or increased the students in the at risk category, consider what are some differences in the system that might be attributed to this decrease in the data.
    - What are some characteristics of the system that were in place last year that are no longer in place this year?
    - Were the walk to read groups changed significantly in the types of students that were grouped together or in the amount of time students are practicing reading connected text?
    - Are students receiving small group instruction during the 90 minutes to practice reading aloud in connected text?

Are 80% or more of your students meeting benchmark?
Are ALL subgroups making growth? (Grade Level, Course/Class, Ethnicity, ELL, Sped)?
Have you set ambitious goals for the next quarter?

Yes: Celebrate!  No: Discuss the following questions about the core program.

READING
- Are all teachers using the program with a high degree of fidelity?
- Is instructional time protected, or are there interruptions such as school assemblies, fire drills, etc.?
- Is the instructional block sufficient, or is more time needed?
- Are students grouped appropriately? (class with the lowest skills has the fewest students, class with the highest skills has the most students, most qualified teacher teaches the lowest performing students)

ATTENDANCE
- Is there a clearly articulated attendance policy?
- Is there sufficient outreach to families and a welcoming attitude toward all students?

BEHAVIOR
- Are a school-wide behavior policy, a behavior curriculum and an EBS team in place?
- Are behavior expectations posted, taught, practiced, and reinforced at the school and classroom level?
- Are support personnel such as bus drivers and secretarial staff trained in positive behavior support?
- Do all staff understand and follow consistent guidelines regarding what constitutes a classroom managed or an office managed referral?
- Is there a classroom as well as a school-wide behavior incentive

Acronyms
- ODRs – Office Discipline Referrals
- OAKS – Oregon Assessment of Knowledge and Skills
- SLP – Secondary Literacy Program
- ELL – English Language Learners
- SPED – Special Education
system?

**Determine through Interview**

1. The **EBIS Group Intervention & Planning Form** is completed for each grade level and lists students who are below the 20th percentile on DIBELS or who meet criteria for interventions in math, behavior, and/or attendance.

2. The **EBIS Student Intervention Profile** is started for each student receiving an intervention and is updated when new interventions are implemented.

3. Team identifies students and/or reviews progress-monitoring data on students falling below the 20%ile on DIBELS.

4. Students in math interventions are progress monitored every two weeks.

5. Students in reading interventions are progress monitored weekly.

6. Daily data is collected for students in behavioral or attend. interventions.

7. Team follow the procedures outlined in the Planning for English Language Learners Document when determining needs of struggling ELL students.

8. Parents are notified when their child is placed in intervention or when there has been a change in intervention.

9. Team analyzes cohort data for ELL students in interventions.

10. After two failed group interventions, the team waits to collect additional information about the student (see **Planning for the Individual Student** page) before planning the individualized intervention.

   a. The **EBIS Team Meeting Notice** is sent to parents

   b. A Case Manager is assigned to ensure that all required tasks are completed.

   c. Parents are given the **RTI Process Brochure**.

   d. A **Developmental History** is obtained

   e. If the student has a second language, the ELL teacher at the school obtains information about language and language development and the team completes the ELL Student Data Checklist.

   f. The **EBIS Individual Problem Solving Worksheet** is completed through a review of the student’s cumulative file.

   g. The EBIS team uses the information obtained from the developmental history and problem solving worksheet and the **Reading Protocol** or other appropriate protocol to determine the appropriate Tier III intervention for the student.

11. If reading or math progress continues to be below the aimline after 4 to 6 weeks of the individualized intervention, the team completes a referral for special education services.

12. The **EBIS Student Intervention Profile, Developmental History Form, Progress Monitoring Data, and the Individual PS Worksheet** are attached to the Special Ed Referral Form.

13. EBIS team reviews data on student performance at least 3 times each year (fall, winter, spring) to evaluate effectiveness of the core programs.

   a. Data regarding the core program are disaggregated by race, special programs (such as ELL and Sped), grade level, and class.

14. Results of the triennial review are shared with grade level teams and changes are made as needed based on the data.
Elementary EBIS Team Planning Survey

To be completed at least annually, used as a guide for planning staff development, and submitted with the reading fund action plan

Please complete the following items on your own. After completing the entire document, place a checkmark next to the top three items that are not fully in place that you would prioritize for goal setting in your building.

Please indicate your position at your school:  Administrator    Teacher    Specialist

</tbody>
</table>

### 4. Decision Rules

| a. All EBIS team members understand decision rules and have access to the Reading, Math, Writing, and Behavior protocols. | | |
| Progress is monitored and interventions changed based upon the decision rules for students who fail to make adequate progress after four to six weeks of intervention. | | |
| Prior to placing a student in an individualized intervention (after two failed group interventions for elementary students), the following are completed: The Problem Solving Worksheet, a developmental history, and if the student is receiving ELL services, an evaluation of his/her language level. Parents receive RTI Brochure at this time. | | |
| Decision rules are consistently followed for all students. | | |
### 5. Reading Interventions
